.. more. Includes TONIGHT'S GUITAR LESSON: \$49.99 LESSON BOOK INCLUDED Now: FREE GIFT WITH EVERY SESSION I've been teaching guitar for over 15 years, and the guitar lesson method that I recommend is so effective that I'm happy to offer it to everyone who wishes to learn the guitar. In fact, my 4-Week method is now included with every lesson purchased. I call it "The Secret of Guitarmanship," and it's one of my favourite methods of guitar instruction. Why Do I Recommend My Method? My method helps you see where you are now, and how far you still need to go before you can master the guitar. In my method, you begin by identifying your strengths and weaknesses, and you focus on the weak areas first. Once you're able to identify the weak areas, you're better able to work on strengthening those areas, which means that you'll build better muscle memory as you practice. In addition to helping you build stronger muscle memory, my method gives you a good idea of what to expect when you learn to play by ear. You'll get a feel for what you're doing while playing, and you'll begin to pick up a lot of musical subtleties that will help you develop better taste in music as you go along. Our Very Effective Method

My method also gives you a chance to develop a strong foundation in the basics of music. You won't have to worry about reading music, because you'll be working directly from tablature. You'll be making sure that the notes you're playing are correct, so you'll be getting your aural training on the right foot from the start. My method also gives you a chance to practice slowly, so you'll really get a feel for what you're doing. You'll be forced to concentrate on the things that matter, and you'll be getting a chance to work on the things that you struggle with the most. I tell my students that if they really want to improve their guitar playing, they need to take their time in learning the things that are important. Over the years I've received a lot of positive feedback about my method. Here 82157476af
